WORKFORCE, COMMUNITY,
& CORPORATE PARTNERSHIPS

2026-2027
Course Catalog

From The Dean

On behalf of the dedicated St. Petersburg College (SPC) faculty and staff, we would like to thank you for engaging with us to enhance the training and workforce solutions within your organization.

SPC was founded in 1927 as St. Petersburg Junior College, Florida's first two-year college. Access, excellence, and student support are the hallmarks of St. Petersburg College. SPC alumni rank first in Florida for earning the highest entry wages among graduates of the state's community colleges.

Regionally accredited and nationally recognized, SPC was the first state college in Florida to offer bachelor's degrees. SPC offers more than 110 degree and workforce certificate programs of study, as well as many high-demand, high-skill, industry-recognized short-term training programs. We provide a career-focused curriculum developed in partnership with industry experts to ensure our students are prepared to meet the needs of today's employers.

At SPC, we pride ourselves on offering responsive, competent, and high-quality training options. Our students and clients are the most important part of our mission, and we work tirelessly to ensure your complete satisfaction from start to finish. We know that you will find our staff to be supportive, knowledgeable, and committed to helping you achieve your desired outcomes.

SPC provides our business partners' employees with the knowledge and skills necessary to maximize their potential and achieve their career goals. We are confident that your company will achieve its goals through our customized programs, which are designed to meet your employees' diverse learning styles.

Thank you once again for entrusting SPC with your training needs. We are honored to work with you to develop a strong, skilled, and well-equipped workforce.

Welcome to Workforce Education

Build Skills. Advance Your Career. Create New Opportunities.

St. Petersburg College Workforce Education provides short-term, career-focused training designed to help individuals develop practical skills for today's workforce. Whether you are beginning a new career, preparing for an industry certification, strengthening your current skills, or exploring a personal interest, our flexible programs can help you take the next step.

Courses are taught by experienced professionals and are offered through convenient online, in-person, and hybrid formats.

Connect with SPC Workforce Education and discover training that works for your goals, schedule, and future.

Support From Enrollment to Employment

You do not need to be a traditional SPC student to participate in many Workforce Education programs. Our team is here to support you from program exploration through career preparation.

Workforce Programs Support:

Our Programs Support team can help you:

- Explore programs and career pathways
- Understand requirements and next steps
- Navigate registration and enrollment
- Review funding and payment options
- Connect with program staff and resources

Career Services

Our Workforce Career Services team provides support with:

- Résumé review
- Job-search preparation
- Career readiness
- Employer connections and placement opportunities when available
- Employment opportunities vary by program and are not guaranteed.

Accessibility & Accommodations

Participants who need an accommodation should contact the Workforce Programs Support team as early as possible. We can help connect you with the appropriate resources based on your program and individual needs.

Additional Resources

Some SPC and community resources, including Titans Care, may also be available depending on eligibility and enrollment status. Contact the Workforce Education team for guidance.

We're Here to Help

From choosing a program to preparing for your next opportunity, SPC Workforce Education is here to help you move forward.

Equal Opportunity & Accessibility

Equal Opportunity Statement:

The Board of Trustees of St. Petersburg College affirms its equal opportunity policy in accordance with the Florida Educational Equity Act and all other applicable state and federal laws, rules and regulations.

St. Petersburg College does not discriminate on the basis of race, color, ethnicity, religion, sex, age, national origin, marital status, pregnancy, sexual orientation, gender identity, genetic information, or disability in its employment practices or in the admission and treatment of students. The College also recognizes that sexual harassment constitutes discrimination on the basis of sex and will not tolerate such conduct.

Accessibility & Accommodations:

St. Petersburg College is committed to providing accessible and inclusive learning environments for all participants.

Workforce Education participants who require special assistance or reasonable accommodations should contact the appropriate program or site representative as early as possible. Requests should be made at least five (5) business days in advance of when the accommodation is needed whenever possible.

The Workforce Programs Support team can assist participants in identifying the appropriate contact and navigating the accommodation request process.

Availability and eligibility for specific accommodations or college resources may vary based on the program and individual circumstances.

Workforce Education Refund Policy

Refund eligibility for non-credit Workforce Education courses depends on the course format and program.

- If SPC cancels a class, students may transfer their payment to another available course or receive a full refund.
- For most in-person or hybrid Workforce Education and Allied Health courses, students must withdraw in writing before the first class meeting or, for a class lasting more than one day, before the second class meeting.
- Fees become non-refundable once a student accesses online course content.
- Unused course materials must be returned within the timeframe established by the applicable program. The cost of used or unreturned materials may be deducted from the refund.
- Online-only, Insurance, Intensive English, Mechatronics, Manufacturing, Electrical Lineworker, and College for Kids programs have additional program-specific requirements.
- Refunds are issued according to the original payment method and may be reduced by unpaid obligations owed to the College.

Scan to access the official St. Petersburg College refund policy for Workforce Education programs.

Workforce Education Scholarships & Funding

8

Invest in Your Future. Explore Funding Opportunities.

SPC Workforce Education programs are developed in response to local employer needs and occupations identified on the Regional Targeted Occupations List (RTOL).

Students are encouraged to apply for available scholarships first. Scholarships may help reduce the cost of eligible career training, industry credentials, and professional development programs.

Additional funding may include Pell Grants, community or workforce funding programs, and payment plans, depending on the program and individual eligibility.

Our team can help you:

- Explore scholarships and funding options
- Understand eligibility requirements
- Identify required documentation
- Connect with funding resources
- Review available payment options

Career Source Tampa Bay

CareerSource Tampa Bay is here to help you chart a course for success. Receive personalized career consultation, academic advancement, job opportunities, and more with our team of career counselors, dedicated to helping every job seeker find a career that meets their individual needs and talents.

Through a strong network of industry and educational partnerships, CareerSource Tampa Bay offers a wealth of resources for career seekers, including internships, training and certification courses, registered apprenticeships, and job placement services.

Interested in applying? Please follow the steps below:
Visit careersourcetb.com/wioa and complete the online application for the WIOA program.

Please be sure to monitor your email for information regarding next steps. Complete a full registration in Employ Florida at www.employflorida.com

At the end of the application process, you will receive additional instructions from a CareerSource Tampa Bay Counselor.

Articulations

Articulation agreements help facilitate the seamless transition of students across and among Florida's educational entities. Areas of opportunity for Career and Technical Education (CTE) articulation agreements include industry certifications or licenses, high school CTE programs, Career Certificate or Applied Technology Diploma (ATD) technical college programs, apprenticeships, and workforce training programs.

Scan the code below for more information about Industry Certifications for Credit.

Corporate College

SPC Workforce Education provides career-focused training, professional development, industry certification preparation, and lifelong learning opportunities for individuals and employers throughout our community. Our programs are designed to help learners build new skills, advance in their careers, prepare for in-demand occupations, and explore personal interests.

Our Offerings Include:

Allied Health – CCMA, Phlebotomy, Patient Care Technician, Medical Billing and Coding, Medical Terminology, and specialized health care training.

Technology & Cybersecurity – CompTIA certifications, AWS, Salesforce, artificial intelligence, Microsoft applications, data and digital skills.

Business & Professional Development – Project Management, Supply Chain Management, Lean Six Sigma, Bookkeeping, QuickBooks, Grant Writing, leadership, and workplace skills.

Advanced Manufacturing & Skilled Trades – Soldering and electronic assembly, mechatronics, robotics, rapid prototyping, and other industry-focused technical training.

Languages & English Programs – English as a Second Language, conversational English, pronunciation, and foreign language courses.

Lifelong Learning & Personal Enrichment – Courses designed to encourage creativity, personal growth, technology skills, professional development, and continued learning.

Mental Health First Aid – Training that builds the skills and confidence to recognize and respond to signs of mental health and substance use challenges.

Corporate Training – Customized training and professional development solutions designed around the needs of businesses, organizations, and their employees.

Certified Clinical Medical Assistant

Fees: \$4,995 Modality: In Person

Program Length: 12 weeks

Prerequisite: High School Diploma/GED or College Transcripts. Successfully pass background/drug screening and must be 18 years of age

Prepare to become a Certified Clinical Medical Assistant (CCMA) through the National Healthcare Association (NHA). The program includes an optional 80-hour (unpaid) externship. Graduates perform both clinical and administrative duties under the direction of physicians, nurse practitioners, and physician assistants. CCMA's typically work in medical offices, clinics, and urgent care centers and may work in general medicine or specialty practices.

Certified Phlebotomy Technician

Fees: \$2,295 Modality: In Person

Program Length: 10 weeks

Prerequisite: High School Diploma/GED or College Transcripts. Successfully pass background/drug screening and must be 18 years of age.

The Phlebotomist is a vital member of the clinical laboratory team, whose main function is to obtain the patient's blood specimens via venipuncture and micro collection for testing purposes. Phlebotomists are employed throughout the healthcare system including in hospitals, neighborhood health centers, medical group practices, HMOs, public health facilities, Veteran's hospitals, insurance carriers, and other healthcare settings.

RN Remediation and Refresher

Fees: \$6,995 Modality: In Person

Program Length: 15 weeks

Prerequisite: High School Diploma/GED or College Transcripts. Successfully pass background/drug screening and must be 18 years of age.

This program prepares participants to pass the NCLEX-RN, reactivate a Florida RN license, or return to clinical nursing practice. It is designed for nurses who lack recent clinical experience, have an inactive license, have failed the Florida NCLEX-RN three times, or hold an international RN license.

The program includes online instruction, two in-person skills lab sessions at SPC's Health Education Center, NCLEX preparation, and 96 hours of supervised clinical experience at a Tampa Bay hospital. Participants must reside in Florida. Required textbooks and online resources are included.

Business & IT

Introduction to CRM with Salesforce

Cost: \$2,195

Length: 6 weeks

Format: Live Online

Build foundational customer relationship management skills using Salesforce. Learn to navigate the platform, understand CRM data, complete basic administrative and automation tasks, and use reports to generate business insights.

CAPM/PMP Project Management Certification Exam Preparation

Cost: \$3695

Length: 8 weeks

Format: Live Online

Prepare for the Project Management Professional (PMP) certification exam through a focused review of key project management concepts aligned with the PMBOK® Guide. This course strengthens your understanding of essential PMP topics and provides practical exam-preparation strategies to help you confidently approach and succeed on the PMP exam.

Language

14

Intensive English Program

Program Length:

7 Weeks (27 Sessions) - Mon, Tue, Wed, Thu Fees:

\$2,229.32

OR

14 Weeks (53 Sessions) - Mon, Tue, Wed, Thu Fees:

\$4,458.64

Location: Clearwater campus

This program is designed for individuals who want to better their English skills. The program presents students with basic, intermediate, and advanced levels of intensive instruction in the areas of grammar, reading, writing, listening and speaking. The program specializes in developing these core communicative skills and also prepares students for later academic and professional studies. Students will be immersed in the English language and have the opportunity to participate in cultural trips to enhance language learning and cultural understanding. The lessons accommodate beginner through advanced levels. Textbooks are not included in the tuition.

CompTIA A+ Combined Certification

Fees: \$2,595

Location: Virtual

Prepare for an entry-level IT or computer support career with CompTIA A+ training. This course covers essential skills in computer hardware, operating systems, mobile devices, networking, virtualization, cloud computing, maintenance, and troubleshooting while preparing students for the CompTIA A+ certification exams.

CompTIA Network+ Certification

Fees: \$2,495

Program Length: 40 hours, 13 sessions

Location: Virtual

Prepare for the CompTIA Network+ certification exam while developing practical skills in networking concepts, infrastructure, operations, security, and troubleshooting.

CompTIA Security+ Certification

Fees: \$2,495

Program Length: 40 hours, 13 sessions

Location: Virtual

Prerequisite: CompTIA Network+ Certification

Prepare for the CompTIA Security+ certification exam while building foundational cybersecurity skills. Learn to secure systems and networks, identify threats and vulnerabilities, apply risk-mitigation techniques, and understand essential security policies and regulations.

CompTIA Data+ Certification

Fees: \$1,995

Program Length: 40 hours, 13 sessions

Location: Virtual

Prepare for the CompTIA Data+ certification exam while developing skills in data concepts, statistical analysis, visualization, reporting, governance, quality, and data-driven decision-making

CompTIA CySA+ Certification

Fees: \$1,295

Program Length: 40 hours, 13 sessions

Location: Virtual

Prepare for the CompTIA CySA+ certification exam while developing cybersecurity analyst skills in security monitoring, threat detection, vulnerability management, incident response, and reporting.

Amazon AWS Certified Cloud Practitioner Certification

Fees: \$1,995

Note: Exam voucher(s) are not included in the cost of this course.

Location: Live Online | 16 weeks

The AWS Certified Cloud Practitioner course is an entry-level introduction to cloud computing and AWS. It builds foundational knowledge of AWS services, cloud architecture, security, pricing, and support resources, and can serve as a stepping stone to the AWS Certified Solutions Architect – Associate course.

Recommended Experience: Basic understanding of IT services; AWS recommends approximately six months of exposure to AWS Cloud in any technical or non-technical role.

Amazon AWS Solutions Architect – Associate Certification

Fees: \$1,995

Note: Exam voucher(s) are not included in the cost of this course.

Location: Live Online | 16 Weeks

Prepare to design secure, resilient, and scalable solutions using AWS technologies. This course covers core AWS services, cloud architecture best practices, deployment strategies, networking, and cost-effective solution design while preparing learners for the AWS Certified Solutions Architect – Associate exam.

Amazon AWS Certified Developer – Associate Certification

Fees: \$1,995

Note: Exam voucher(s) are not included in the cost of this course.

Location: Live Online | 16 weeks

Develop the skills to build, deploy, and troubleshoot cloud-based applications using AWS. This course covers core AWS services, APIs, command-line tools, serverless applications, application deployment, and cloud development best practices while preparing learners for the AWS Certified Developer – Associate exam.

Amazon AWS Certified SysOps Administrator – Associate Certification

Fees: \$1,995

Note: Exam voucher(s) are not included in the cost of this course.

Location: Live Online | 16 weeks

Build the skills to deploy, manage, and operate workloads in AWS environments. This course covers AWS systems operations, security, networking, monitoring, automation, and cloud management best practices while preparing learners for the AWS Certified SysOps Administrator – Associate exam.

AI Tools for Everyone

Fees: \$99

Location: In Person

Explore practical ways to use artificial intelligence in everyday life and the workplace. Learn how AI tools can support productivity, creativity, communication, research, and problem-solving.

UAS/Drones Flight Training

Fees: \$299

Program Length: 10 hours In Person

Gain practical, hands-on experience operating Unmanned Aircraft Systems (UAS), commonly known as drones, in a guided training environment. This interactive course is designed for individuals interested in developing foundational flight skills for recreational, commercial, or workforce applications.

Apple Computer Lab Workshop

Fees: \$199

Location: In Person

Build confidence using Apple computers and explore essential features, tools, and applications. This hands-on workshop helps learners strengthen everyday technology skills and become more comfortable navigating the Apple environment.

Grant Writing for Nonprofits Workshop

*An AI Enhanced Version Available.

Fees: \$129

Location: In Person

Learn the fundamentals of developing effective grant proposals while exploring how AI tools can support research, writing, and organization. Gain practical strategies for creating stronger funding requests.

Lifelong Learning

18

Canva

Fees: \$59

Location: Online/In Person

Learn to create professional-looking graphics using Canva's easy-to-use design tools. Explore templates, images, branding, and design basics for social media, presentations, flyers, and other digital content.

Social Media Marketing for Nonprofits & Small Businesses

Fees: \$189

Location: In Person/Online

Learn practical strategies for using social media to increase awareness, engage supporters, and promote your nonprofit's mission. Explore content planning, platform best practices, audience engagement, and effective content creation.

French I

Fees: \$200

Location: 8 weeks (virtual)

This course introduces learners to basic French communication skills for everyday situations. Through interactive conversations, pronunciation practice, and essential vocabulary, students will develop the confidence to greet others, introduce themselves, ask and answer simple questions, and participate in common social exchanges. Emphasis is placed on speaking and listening skills, helping learners build a practical foundation for real-world communication in French.

French II

Fees: \$200

Location: 8 weeks (virtual)

Conversational French II builds upon foundational knowledge acquired in French I, with a continued focus on practical communication skills in everyday situations. Designed for students with basic proficiency in French, this course emphasizes speaking and listening comprehension through interactive activities, dialogues, and real-life scenarios. Students will expand their vocabulary, improve pronunciation, and gain confidence engaging in more complex conversations.

Lifelong Learning

19

Spanish Foundations

Fees: \$125

Program Length (8 hours)

This course provides an introduction to foundational Spanish language skills. Learners will practice basic vocabulary, pronunciation, and simple phrases for everyday communication, with an emphasis on listening and speaking. The course is ideal for beginners and prepares participants for further study in conversational Spanish.

Spanish I

Fees: \$200

Program Length: 8 weeks, In Person or Online

This course is designed to immerse learners in practical situations, empowering them to express themselves with ease and confidence in everyday life. The primary goal is to offer the opportunity to use essential Spanish vocabulary in context, tailor it for survival in real-life scenarios where Spanish is the key to communication. This course is suitable for professionals seeking to build language skills for job advancement and community members interested in learning for travel or personal enrichment.

Spanish II

Fees: \$200

Program Length: 8 weeks

Build practical Spanish skills for everyday communication with Conversational Spanish II. Building on Conversational Spanish I, this course expands vocabulary and confidence for real-world situations, including work, travel, and personal enrichment.

Spanish III

Fees: \$200

Program Length: 8 weeks

Practical Spanish Grammar and Conversation

Fees: \$200

Location: 8 weeks

This course is intended for students who have completed Spanish III or who have at least two years of Spanish experience. The course explores ways to learn enough grammar to put sentences together for faster communication. Students will then be encouraged to hold conversations on topics suggested by the instructor.

Lifelong Learning

20

Six Sigma Yellow Belt Certification

Fees: \$49

Program Length: 10 Weeks

Location: Online

This course is ideal for individuals who are new to the world of Six Sigma or have a small role, interest, or need to develop foundational knowledge; quality professionals; engineers; production managers; frontline supervisors; and all individuals, including process owners and champions, charged with the responsibility of improving quality and processes at the organizational or departmental level.

English Pronunciation I & II

Fees: \$160

Program Length: 6 Weeks

In this course, students will learn the pronunciation of single English sounds. Students will practice making the sounds and examples of those sounds in common English words and phrases. This course includes exercises to help create better English-speaking habits. The course starts with the basics of English pronunciation.

Conversational English As A Second Language

Fees: \$160

Program Length: 6 Weeks

In this course, students will be exposed to informal conversational English, such as slang and idioms, used by native speakers of English. Students will be given the opportunity to express themselves more fluently on a variety of casual topics. Activities such as role plays, interviews, and interactive language-building exercises will be used. Students will develop fluency in practical, real-world English using a variety of source material, including blogs, songs, and videos, as well as textbooks and online material.

This course is designed for those with intermediate to advanced English proficiencies.

Manufacturing

21

Electrical Lineworker

Fees: \$7,500

Program Length: 14 Weeks (360 hours)

Location: Allstate campus hands-on classroom and online assignments

St. Petersburg College's Electrical Lineworker training prepares students for entry-level opportunities in the electric utility industry. Students gain foundational knowledge in electrical theory, power systems, safe work practices, and overhead and underground electrical construction and maintenance.

Hands-on training includes pole climbing, digging, using industry tools and equipment, and developing basic mechanical and technical skills. Students also learn electrical terminology, workplace safety, first aid, rescue, CPR, teamwork, and job responsibility.

Students will receive the following certifications as a result of this training:

- Restricted CDL Class A
- OSHA10 Card
- CPR, AED & First aid
- Bucket Truck Rescue
- Pole Top Rescue

Electronic Board Assembly Operator (Circuit Board Soldering)

Location: In-Person, Midtown/ Tarpon Springs

Time: 8 weeks

Fees: \$4,995.00

Build hands-on skills in circuit board soldering, electronic assembly, inspection, and quality assurance for careers in advanced manufacturing. This course introduces industry standards including IPC J-STD-001 and IPC-A-610, with training in component installation, wire termination, solder joint inspection, workmanship requirements, Foreign Object Debris (FOD) prevention, and process control. Students will also complete OSHA 10 General Industry safety training and develop the skills needed to meet quality and reliability standards in aerospace, defense, space, and other high-reliability electronics environments.

Manufacturing

22

Mechatronics Program

Location: In Person, Tarpon Springs

Time: 8 Weeks

Fees: \$1559

Build practical skills in mechanical, electrical, and controls maintenance for today's automated manufacturing environments. This course focuses on troubleshooting industrial machinery from a systems-based perspective, helping participants identify and resolve plant floor issues involving interconnected mechanical, electrical, and control systems. Students will gain the knowledge and technical foundation needed to pursue the three PMMI Mechatronics Certifications and support maintenance, manufacturing, and industrial automation operations.

Robotics and Semiconductor Technician Training Program

Location: In-Person Midtown/ Tarpon Springs

Time: 8 months

Fees: \$8995

Prepare for careers in robotics, semiconductor manufacturing, industrial automation, and advanced manufacturing through hands-on technical training in mechatronics and SMART Factory systems. The program combines Mechatronics Foundations, SMART Factory Foundations, and applied math while building skills in robotics, mechanical systems, fluid power, industrial electricity, maintenance operations, and Industry 4.0 technologies. Students can earn multiple industry-recognized credentials through SACA, NIMS, PMMI, and OSHA, including certifications in robotics systems, operations, maintenance, mechanical components, fluid power, industrial electricity, and OSHA 10 General Industry.

Foundations of Supply Chain Management and Logistics

Cost: \$2595

Length: 8 weeks, In-Person Tarpon Springs

Build a strong foundation in supply chain management and learn how products and services move from suppliers to customers. This course introduces key concepts in purchasing, operations, inventory, logistics, and distribution while exploring how each function works together to support efficiency, customer satisfaction, and business success.

Meet Our Faculty
